## cyberM·I·N·D· hosts the Art Hop

JUNE ART HOP

This month cyberM·I·N·D· will be participating in the Extended Art Hop put on by the Arts Council of Greater Kalamazoo. The Art Hop will take place on June 2nd and

we will have an opening reception from 5pm to 9pm. Our artist is Hillary Fisher, a recent B.F.A. graduate from Western Michigan University and resident of Kalamazoo. Her art is inspired from the sights and experiences she had while traveling through Israel. Hillary will have several pieces on display for the event and will be in attendance to greet visitors. Hors d'oeuvres and wine for the Art Hop will be generously provided by Tiffany's

Wine & Spirits on West Main Avenue. The public is encouraged to come out and enjoy this event and view the beautiful works of art that Hillary has created. All of Hillary's art will be available for viewing and purchase until the end of August.

Below the navigation is a decorative banner featuring a circular logo with 'HERBS GROUNDCOVERS VINES PERENNIALS' and 'TWIXWOOD NURSERY' text, surrounded by images of various plants. To the right of the banner, there's a large image of two potted hosta plants. The main content area has a background of faint floral patterns. On the left, there's a sidebar with sections for Spring & Summer Office Hours (8:00AM - 5:00PM, Monday - Friday) and Winter Office Hours (8:30AM - 4:30PM, Monday - Friday). On the right, there's information about Twixwood Nursery's address (P.O. Box 247, 2759 E. ### Excel 2003

Here are some tips when using Excel 2003—

#### Skip through worksheets with a keyboard shortcut:

To move one worksheet to the right, press CTRL + PAGE DOWN. To Move one worksheet to the left, press CTRL + PAGE UP.

**To move or copy a worksheet:** Right-click a tab, and then click Move or Copy on the shortcut menu. In the Move or Copy dialog box, you have options: To move the worksheet to a spot within its own workbook, select a sheet in the Before sheet box. To move the worksheet to another open workbook, select the workbook in the To book list and then click OK. To keep a copy of the worksheet you're moving in this workbook (rather than just moving it), select the Create a copy box.

The screenshot shows four Microsoft Excel windows side-by-side. The top window is 'Microsoft Excel - Book1' with a single sheet named 'Sheet1'. The bottom-left window is 'original1.xls' containing data for MP3 Players, Cell Phones, Digital Watches, and Key Chains. The bottom-right window is 'modified1.xls' showing the same data with some values changed. The bottom-middle window is 'original2.xls' showing the same data. The bottom-right window is 'modified2.xls' showing the same data with different changes. The status bar at the bottom of the interface indicates 'Ready'.
